

INVITATION

„CIRENE - Cross-border ICT Research Network” project Opening Event and Press Conference

University of Szeged Congress Centre

24 February 2012

Dear Sir/Madam,

The University of Szeged, Department of Software Engineering, is delighted to invite you to attend the **Opening Event** and **Press Conference** of the „CIRENE – Cross-border ICT Research Network” project.

CIRENE is a project co-financed by the European Union within the framework of the **Hungary-Serbia IPA Cross-border Co-operation Programme**. It is a joint R&D project of the *University of Szeged*, the *University of Novi Sad* and the *Vojvodina ICT Cluster*.

The **overall project objective** is to strengthen and make more efficient and effective the cooperation between the research groups of the two universities, which should be a base platform for common R&D activities in the area of embedded system testing. Furthermore, to jointly establish a research agenda that will provide a basis for R&D activities during and after the project, based on surveying state-of-the-art, open research questions and local industrial needs, hence enable knowledge transfer in the ICT sector. As a **result of the project** a specific testing methodology and a platform for embedded systems will be developed, relying on the findings of the initial research and the needs of the local industrial players.

We will provide an interesting programme which will offer both a high level overview of project objectives and a technical introduction to the CIRENE project. Parallel with the technical blocks, a press conference will be held where the key representatives of the CIRENE project will answer the questions of the press.

After the press conference, we will offer you lunch, which will be followed by the technical workshops for project participants. See back of this letter for the programme details.

Please confirm your attendance latest by **February 13, 2012** by writing an e-mail to frittman@inf.u-szeged.hu to give your confirmation.

Contact person: Patricia Frittman, CIRENE project manager, phone: +36-62-546-781

We look forward to seeing you at the University of Szeged Congress Centre on 24 February 2012.

Kind regards,

Dr Árpád Beszédes
CIRENE Project Leader

**„CIRENE - Cross-border ICT Research Network” project Opening
Event and Press Conference**

*University of Szeged Congress Centre
Seminar Room III (6722 Szeged, Ady tér 10.)*

24 February 2012
